

FREY VINEYARDS

ORGANIC

2014 AGRICULTURIST BLANC

MENDOCINO

A honeysuckle nose delights with refreshing tropical fruit flavors, nuanced by starfruit and lychee. Gather around the picnic blanket or fire pit and enjoy this cheerful, versatile blend.

Pairs well with grilled fish topped with peach salsa, or Vietnamese lettuce wraps with a sweet chili dipping sauce!

Alcohol: 13.4% by volume

Total sulfite, naturally occurring: TTB analysis, 0 ppm.

Aged in stainless & exposed to French oak staves

Frey Vineyards is a leader in organic non-sulfited winemaking. Located in Mendocino County, California, Frey was founded in 1980 as the nation's first organic winery and is still family owned and operated today. Going on 34 years, we continue to produce premium wines made without added sulfites or other preservatives.

Our award-winning wines are sold throughout the USA and abroad. The use of modern winemaking equipment and organic agricultural techniques create delicious and stable additive-free wines. We are excited to be part of the growing pure foods movement, where organic wine is a perfect complement to organic gourmet cuisine. Enthusiasm for organic and sulfite-free wines is strong. An estimated 10 million bottles of no-sulfites-added wines are sold annually worldwide, and sales in this sector are showing consistent growth. Frey Vineyards has been a vanguard in organic and Biodynamic® agriculture in our local area. We practice innovative intercropping by growing grain, vegetables, and crops for culinary oils between some of our vineyard rows. We also source grapes from over 20 certified organic and Biodynamic grape growers in Mendocino and Lake Counties.
