

FREY VINEYARDS

2014 ORGANIC AGRICULTURIST  
MENDOCINO

It is an approachable blend of family-farmed grapes. With a bright garnet hue, sturdy structure and grippy character, this tasty wine has a remarkable ability to pair with most foods, such as spice-crusted rack of lamb, caramelized shallots and roasted root vegetables.

*Alcohol: 13.5% by volume*

*Total sulfite, naturally occurring: TTB analysis, 0 ppm.*

*Aged in stainless & exposed to French oak staves*

Frey Vineyards is the leader in organic non-sulfited winemaking. Located in Mendocino County, California, Frey was founded in 1980 as the nation's first organic winery and is still family owned and operated with 3 generations of Freys working side by side. For 35 years we have produced premium wines made without added sulfites or other preservatives.

Our award-winning wines are sold throughout the USA and abroad. The use of modern winemaking equipment and organic agricultural techniques create delicious and stable additive-free wines. We are excited to be part of the growing natural foods movement, where organic wine is a perfect compliment to organic gourmet cuisine. Enthusiasm for organic and sulfite-free wines is growing.

Frey Vineyards has been a vanguard in organic and Biodynamic® agriculture in our local area. We practice innovative intercropping by growing grain, vegetables, and crops for culinary oils between some of our vineyard rows. We also source fruit from over 20 certified organic and biodynamic grape growers in Mendocino and Lake Counties.
