

Why Choose Frey Organic Wines?

- Frey Vineyards is the **oldest & largest** USDA certified organic winery in the United States, situated on 1,000 acres in Mendocino County, CA with 75% of this land held as unspoiled natural habitat
- Family owned & operated for 3 generations
- Frey produces wine of the **highest quality** while emphasizing **organic & Biodynamic** practices & natural yeast fermentation
- **No synthetic pesticides** or fertilizers used in farming. **No Sulfites Added** to wines
- When you choose organic you help: support **biodiversity & soil health**, protect & conserve **water**, and ensure that **farm workers & their families are safe** from the negative effects of toxic pesticide exposure
