

# BEAVER CREEK

## VINEYARDS

**2016 MYSTERY MERLOT, Rose Ranch, Sonoma Valley**  
**100% Organic, Demeter Certified Biodynamic®**

Rose Ranch is located in the Valley of the Moon, Sonoma California's authentic wine country. The vineyard is situated at the base of Sugarloaf Mountain, once an active volcano & home to the Native American Pomo Indian tribe. The soils of the region are alluvial with volcanic material making growing vegetables & wine grapes a natural fit.

You will discover deep flavors of blackberries and dark chocolate that are layered with notes of cherry. It is a unique, medium bodied wine of exceptional quality that showcases the best fruit that Sonoma Valley terroir has to offer. With a beautiful bouquet and an enjoyable finish, this wine is perfect now and will continue to improve with age.

Certified organic by Stellar & certified biodynamic by Demeter. No chemicals or additives were used in the winemaking process.
