

# DOMAINE BOUSQUET

*Naturally Elegant Wines™*

The Bousquet Family, who hail from the southern French city of Carcassonne, have a long history and prestigious wine making tradition.

In 1998, after buying a parcel of land, they moved from France to the foothills of The Andes. The vineyard is located in Tupungato, Uco Valley, Mendoza at an altitude of 1200 meters (4,000 feet) above sea level, making it one of the higher altitude vineyards of Mendoza and the world. The vineyards are blessed with cool nights and a near constant cool breeze, the idyllic conditions for ripe grapes and excellent wines.

The main objective of Domaine Bousquet is to combine the European Elegance in winemaking style with the perfect cool climate and terroir of the Uco Valley in Argentina.

## **Bousquet Family Organic Winemaking Philosophy:**

We are dedicated to farming organically while improving our land's biodiversity. We believe that the healthier the vineyard, the better the fruit and of course the wine, in other words, by nourishing the land, and treating it with respect, we know that the land will give us back its finest fruits.

Our organic grapes offer a quality of fruit and vibrancy of taste that is unparalleled in the world of ordinary wines. Organic vines tend to produce lower yields of greater concentration and flavor than the chemically fed ones, allowing their unique flavors to shine through.

Additionally, organic production helps us to protect and sustain the land and the environment for future generations.
